Outlines Policy, Which, He Believes, Will Restore Prosperity and Safety to Revolution-Ridden Republic. His Task Difficult.

## Coming Back to Mexico

General Porfirio Diaz, ex-President of the republic, who has been in exile in Europe, is coming home. There is not the slightest possibility that he again will mix in the polities of Mexico, but his enforced exile is ended. Word was received today from Paris that within a short time General Diaz again will be in his private residence in Cadena Street, an interested spectator of the development of the new regime. It was authoritatively stated today that the arrival home of General Diaz will be not later than April 2, the anniversary of the taking of Puebla by his forces in 1867 in the war of French intervention. This day will be celebrated in honor of General Diaz.

It is certain that the new administration in Mexico must deal with a new revolution in addition to the remnant of the old one. Three Governors of states in the republic formally have refused to recognize Provisional President Huerta, and two or three others are doubtful.

Huerta declared that, no matter what the cost should be or who the men were who paid it, peace would be restored in Mexico. He said it was his ambition that when he left the presidency people would say of him: "He has restored order throughout Mexico, made safe the investment of money, and rendered secure the lives and in and rendered secure the lives and in

Calmly and dispassionately General Huerta outlined his program for the use of the army in restoring and maintaining order.
